**Containing**

**Alphabetical Section** (Page 319) Gives names, occupations and addresses of all men eighteen years old or over, women who carry on business, widows, and all business houses. Dates of deaths during the previous year are given and, where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department (the wife's name being in parentheses) with much other information that cannot be found elsewhere.

**Business Directory** (Page 539) All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

**House Directory** (Page 155) A list of Householders and Places of Business arranged in numerical order upon their respective streets. The Streets are arranged in alphabetical order. The location of Intersecting Streets is clearly shown enabling one to tell at once between what streets a given number lies, and the quickest way to get there.

**Advertising Department** (Page 65) Where more information than is possible to give under the headings is placed on file for buyer's and seller's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

**Map** (Opposite) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

**Miscellaneous Information** (Page 7) Organization of City Departments, giving officers—Cemeteries—Post Office branches—Parcel Post zones and rates—Churches and ministers—Societies, Institutions, etc., with officers—Courts—Population tables—Calendar, etc.

The Waltham Public Library is the union of three libraries. (1) The Waltham Social Library, founded in 1798, and the earliest Waltham library, was given to the Unitarian Society, and later, in 1865, was presented to the town. (2) The early Boston Manufacturing Company's Manufacturers' Library was given to the Rumford Institute Library, which, in turn, offered all its books to the town in 1865. (3) The Agricultural Library of the Waltham Farmers' Club was presented to the town in 1874. The Public Library was first housed (1865) in the Bank Building on Main street. In 1879 it was moved to the corner of Charles and Moody streets (Welch Block). In December, 1915, the Library was moved to the present building, which is the gift of a Waltham citizen, Francis Buttrick. The cost of the building was $124,000.

There are two Branch Libraries, the South Branch, established in 1919, now located in the South Junior High School Building, and the Lakeview Branch, established in 1925 in the Nahum Hardy School, Lake street.

There are about 75,000 volumes in the Library. About 250 newspapers and periodicals are received. There is also an excellent collection of pictures on every subject, arranged in classified form, which may be taken from the building. The Library undertakes to help all by supplying information and in looking up difficult reference questions when requested.

The circulation in 1925 was 278,257, an average of 8 books per capita. The City appropriates about $34,000 a year for the support of the Library and its Branches. There are in addition five endowment funds for the purchase of books: The Lowell Clark Fund of $5,000, the Enos T. Luce Fund of $1,000; The Jacob Whitney Fund of $1,000; The Porter L. Newton Education Fund of $5,000 and The Lorenza Haynes Bequest of $1,000, which yield about $500 a year

Every Wasted Minute Costs You Money

Whether it's your time or that of an inexpensive clerk that is wasted by using an out of date directory, the loss is yours.

In the course of a year the time wasted usually costs far more than the price of a new directory.

Misdirected parcels or messages cause expense and annoyance.

Cut out this leak. Order a new directory at once. It will pay you bigger dividends for the money invested than you realize.

## DIRECTORY OF STREETS

COPYRIGHT, 1926, SAMPSON MURDOCK CO., BOSTON, MASS.

EXPLANATION—In the House Directory residences and places of business, designated by their street numbers, are arranged in numerical order upon their respective streets, those upon the right side of a street appearing first, followed by those upon the left side

Names are given against their proper street number, and when a house is not numbered a cipher is substituted for the street number

Boarders are denoted by the abbreviation b, and business men at their place of business are denoted by the street number printed in heavy-faced figures. Names of all others are those of housekeepers

When a person's place of business and residence are at the same place, it is indicated by the use both of heavy-faced figures for the street number and of the abbreviation h at the end of the line

Names of cross streets appear at their place of intersection

After the name of a street the word STREET is omitted; the words Newton, Lincoln and Lexington, when referring to city or towns of those names, are followed by the word LINE; when not followed by the word LINE they are names of streets

*Streets which have not been accepted by the city are indicated by an asterisk

**Streets, a part of which have been accepted and a part remains unaccepted, are indicated by two asterisks

ABBREVIATIONS—av, avenue; b, boards; ct, court; E, east; fr, from; h, house; N, north; nr, near; pl, place; r, residence in rear; r. place of business in rear; rd, road; S, south; sq, square; ter, terrace; W, west; wd, ward. For other abbreviations see Index to Contents

## *A Public Service Publication*

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business life and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

# DIRECTORY SERVICE

## THE LIBRARY

Our Directory Library covers the United States and Canada. The latest book for every city of 25,000 population or more is there for the reference of business and professional men, together with over 1200 other Town and City and Trade Directories. Single reference to any of these books may be made without charge.

## SALE OF DIRECTORIES

*May we help you keep your Library up-to-date?*

Through one account, at this office, you can secure all Directories upon publication at the list price.

You may place a standing order for every book, the last edition of which you need always on file, and be assured the copy will be received promptly. You may check up your Library through us, finding the date of the present edition of any Directory and when the new book will be from press.

## S & M MAILING LISTS

From our Library information, which includes a fund of valuable data, in addition to the very complete file of Directories, concerns all over the country are having us build Mailing Lists according to their particular need for merchandising their product or service, or their by-product in a larger territory or to a new class of buyers.

Some Lists compiled are for the complete classification in a given territory—as *every* Retail Grocer in states east of the Mississippi River; while others are for PREFERRED PROSPECTS—as a List of Retail Grocers rated $10,000 and over. This List would number about 9,000 as against 150,000 names in the complete listing.

*Write for the Mailing List Data Sheet which is a convenient form for making inquiry regarding a List to meet your requirements.*

Where chalk crayons were invented and first made.

WALTHAM is 9 miles West from the port of Boston, situated on the Charles River, and served by the Boston and Maine Railroad, with the Hoosac Tunnel Division, Massachusetts Central Division, Waltham Branch line and seven lines of Street Railways.

The City has exceptional business and manufacturing facilities.

WALTHAM bespeaks of a numerical population of 36,000 but a potential population of 150,000 as it is the trading and working hub of a wheel that has 12 suburban municipal or township spokes in its circumference of commerce.

### THE CHAMBER OF COMMERCE

Through the public spirit and splendid co-operation of its citizens, Waltham maintains an active Chamber of Commerce, the slogans of which are:—

*Service To and For the Community.*
